Mr. R. D. Steels  
U.S.S. Lead Refinery, Inc.  
5300 Kennedy Avenue  
East Chicago, Indiana 46312

Dear Mr. Steels:

Re: Disposal of Calcium Sulfate

This will confirm your phone conversation with Mr. Bruce Palin on March 8, 1977, concerning the above-referenced subject.

You are hereby granted approval to dispose of the calcium sulfate waste at Gary Land Development (SW 133). It is understood that this waste is generated at a rate of approximately 1 1/2 tons per day.

This approval is granted with the condition that the moisture content is only enough to prevent dust problems and that the waste be mixed with the general refuse.

If you have any questions, please contact Mr. Bruce Palin of the Solid Waste Management Section at AC 317/633-6400.

Very truly yours,

Roland P. Dove, Director  
Division of Sanitary Engineering
